

National Soybean Research Laboratory

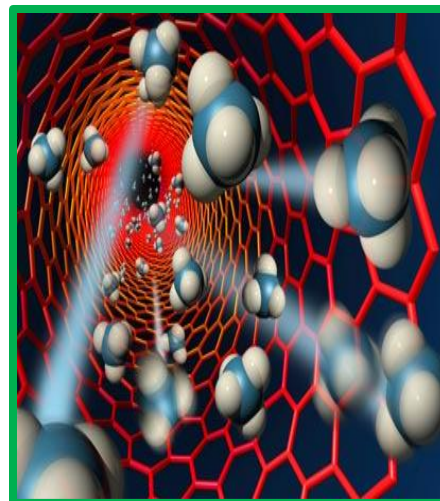

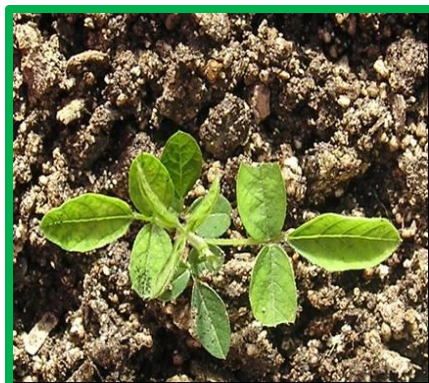

Craig Gundersen

Executive Director, NSRL

Professor, Department of Agricultural and Consumer Economics

Focus Areas

- Soybean **Production**
- Soy **Nutrition**
- **International Development**

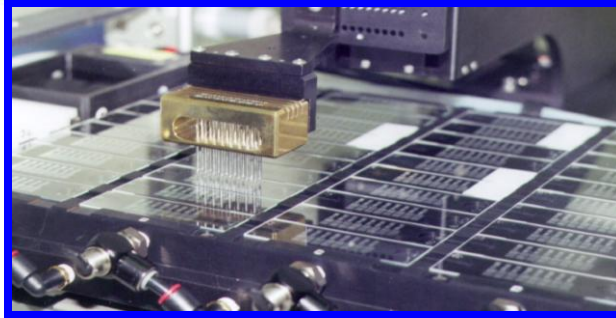

Managed Research Areas (MRAs)

- Production
 - Soybean Germplasm and Breeding
 - Soybean Diseases and Insect Pests
 - Weeds
- Profitability
- Animal Nutrition

Other Research Areas

- Raman Spectroscopy
- Varietal Information Program for Soybeans (VIPS) www.vipsoybeans.org
- ISA Yield Challenge
- Nanotechnology

Intake of 8 year old boy as percent of daily requirements

100 g Rice + 55 g Beans

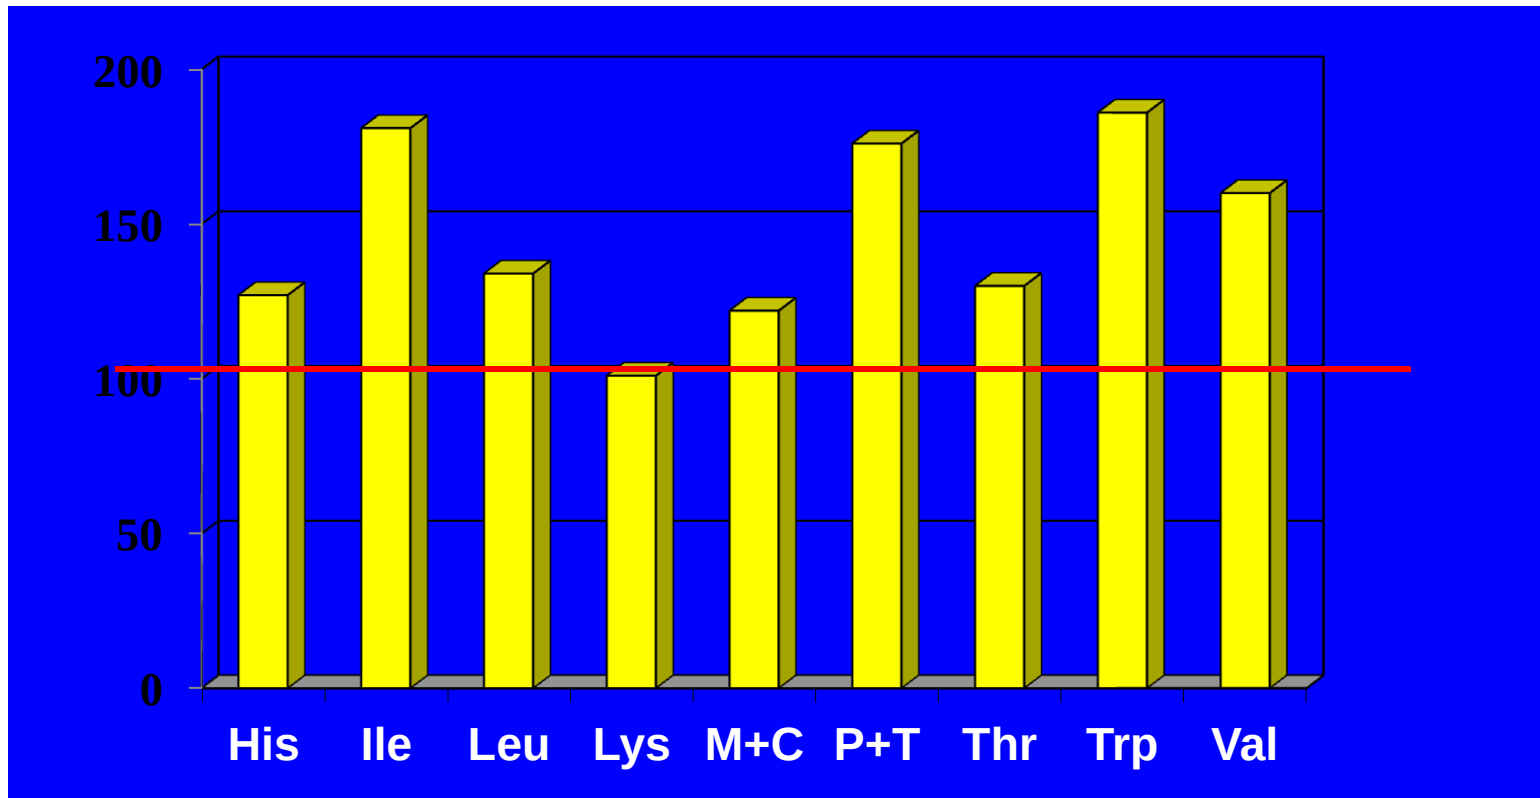

Intake of 8 year old boy as percent of daily requirements

200 g Rice + 55 g Beans

Intake of 8 year old boy as percent of daily requirements

200 g Rice + 50 g soy flour

India

2013 INTSOY Processing and Marketing Soybeans for Meat, Dairy, Baking and Snack Applications

Week of June 2nd 2013

- Soymilk Processing
- Extrusion
- Global Trends
- Soyfood Ingredients
- Consumer Perceptions
- Egg and Dairy Replacement
- Meat and Soy Applications

A unique opportunity to gain hands-on experience and practical knowledge about soybeans

- 65 people from 13 countries
- Product Demonstrations

- Field Trips
- Industry Experts
